Wolf of Webstreet

Introduction:

This is the platform for you and your team to build Web Applications. The problem statement will be revealed on campus during the conduction of the event . Where you have the freedom to choose the problem and propose a solution .

Description:

An overnight contest in which participants will be given a theme during the course of the event on which they have to bring out the most innovative idea of an app or website solving particular problem . Can be implemented in any programming languages. Event duration 30 hours.

Rules:

• Participants have to bring their own Laptops.

• A team could consist from a minimum of 2 to a maximum of 4 members.

• Lone wolfs are also welcomed.

• Use of any built-in template, template wizard, Wordpress or template from the internet or any other source is not permitted, and is considered cheating.

• The emphasis of the competition is to create an original website. Therefore, any team found to be cheating, will be punished with severe point deduction or be immediately disqualified from the competition.

Judging Criteria:

• Accuracy of backend logic .

• Visual appeal and style of front end .

• Adherence to copyright laws.

Reserved Rights:

• All decisions by judges with respect to any aspect of the competition are final and binding on student(s), and staff(s). They are not subject to review.

• The judges reserve the right to modify the competition rules and/or submission procedures as deemed necessary should a technical issue arise during the competition.

• The judges reserve the right to make clarifications with regards to the competition rules as deemed necessary.

Accommodation :

• Accommodation will be provided (charges apply).

Certificate policy:

- Top 2 teams will be awarded with certificate of excellence, goodies and the other announced prizes.
- Certificate of participation will be given to each team.
