AppINess

Introduction:

This is the platform for you and your team to show up your skills of App Development. The problem statement will be revealed 25 days before the event.

Description:

The competition will be held in three stages . The first stage would comprise of an online round in which each group will have to send their abstract. In the next stage, the selected teams will have to give a power point presentation of their proposed idea and the implementation plan. Finally, in the last stage(on the day of event) the top 5 teams will have to demonstrate their apps .
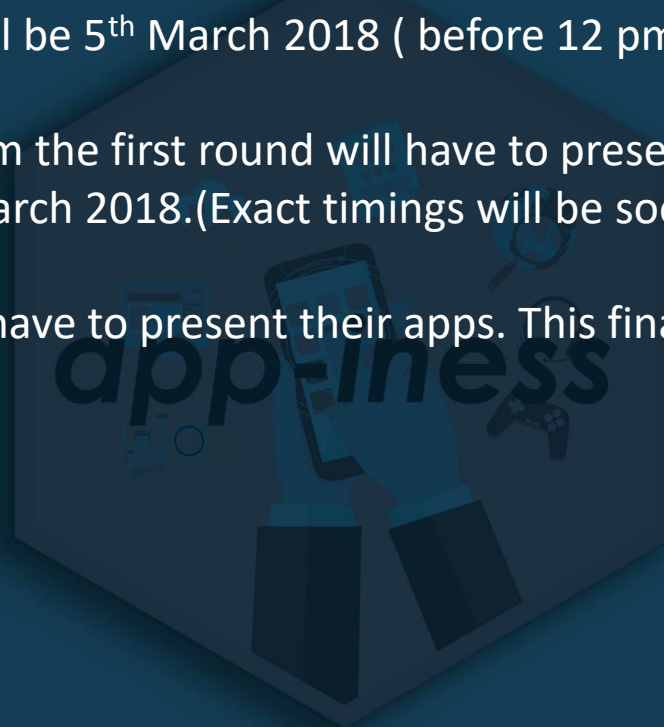

TECHNOVATE

Stages of Event

- The first stage will consist of an online round where the teams will have to submit their abstracts of the idea proposed. The last date for abstract submission will be 5th March 2018 (before 12 pm).

- In the next stage the selected teams from the first round will have to present their implementation plan in form of presentation in front of judges on 6th March 2018.(Exact timings will be soon notified to the participants).

- In the final round, the top 5 teams will have to present their apps. This final round will be held on the event dates of Technovate (17th and 18th March 2018).

SPECIFICATIONS

- The app should be compatible for both Android and IOS (Cross platform).

- The app should consist of a search tab where the user could easily find any required info.

- The User Interface must be easily understandable(not much complex).
